

WEEKLY REPORT
Region 3
Environmental Protection Agency
Week of March 26-30, 2012

Potential or Expected Press Stories, Significant Policy, Regulatory, or Legal Actions:

March 26 – Validated results of EPA’s sampling of home wells in Dimock, Pennsylvania, will be shared with the second group of affected homeowners. Media coverage was heavy after the data release of the first eleven homes sampled, and is expected to continue as data for the next twenty homes will be shared with the homeowners. We expect reporters’ inquiries will continue to come into both the regional office and Headquarters regarding EPA’s sampling results.

Grant Announcements

Legislative Engagement

March 28: Regional Administrator Shawn M. Garvin will meet with Representative Goodlatte (VA) in DC to discuss Chesapeake Bay issues.

Travel/public meetings/speaking engagements for the Assistant Administrators, or Regional Administrators

No travel/public meetings/speaking engagements are scheduled for the week at this time, other than the meeting with Rep. Goodlatte mentioned above.
